SIENA is one of Italy’s most treasured medieval cities and only a 40-minute train ride from our home in Certaldo. The Duomo, an outstanding Gothic cathedral, is full of treasures which includes its mosaic marble floors and bejeweled, ornate interior. The Campo is the site of the famous Palio horse race, a centuries old competition that occurs twice a year for local citizens. Students discover the magic of Siena on school trips and on their own independent day trips. Our students often will take the train to visit the numerous museums, upscale shopping and sumptuous Tuscan meals.
